The Gift of Time

My name is Austin Carr, and I am 13 years old.
Gift of Life is very special to me because organ donation isn't just something I've heard about—it is something that changed my family's life.
My Papa was a two-time kidney recipient. His first kidney was donated by his brother. Then, in 2005, my dad made an incredible decision and donated his kidney to my Papa.
I was born in 2013. Because of that gift, I was blessed with something that no amount of money could ever buy—time with my Papa.
I had 8 precious years with him. Eight years of hugs, laughter, memories, and moments that I will carry in my heart forever.
I know now that organ donation doesn't just give someone a transplant. It gives families more birthdays, more holidays, more hugs, more memories, and more time together.
That is why Gift of Life will always hold a special place in my heart. I want to continue sharing my story and helping others understand just how powerful the gift of donation truly is.
Thank you to every person who donated today.
Your kindness may give another family the greatest gift of all— **TIME.**

With love,
Austin Carr "Lil Elvis"
